**Washington, DC --** There are many steps your organization must take before it can successfully tap into the vast, new stimulus funding opportunities.

**Here are just three:**

**Step 1:** Tapping into the billions of dollars in new funding made available by the Obama stimulus package will require nonprofits to learn how to deal personally with both federal and state funding officials.

**Step 2:** In order to qualify for some of the funding, new partnerships with other nonprofits should be fostered carefully but swiftly.

**Step 3** Since stimulus opportunities are subject to changing requirements, it's critical to stay on top of any new developments as they occur.

These are just some of the many important issues that will be discussed in depth during *Federal & Foundation Assistance Monitor's* **timely audio conference to be held next week April 16, from 1 p.m. to 2:30 p.m. ET: "The Obama Stimulus Package: What's In It For You."**
